Power of Teamwork

Teamwork is the journey of transforming “I” into “We.”

A person alone may run fast…
but with a team, they can go much farther.

Saying “I can do it” is easy,
but saying “We will do it” holds real power.

When one person offers ideas,
another gives hard work,
and a third takes responsibility…
ordinary people can create extraordinary results.

Teamwork teaches us that
success does not belong to one person alone,
it is shared by everyone involved.

Where “I” becomes smaller,
ego becomes weaker.
Where “We” becomes stronger,
trust, unity, and victory grow.

Remember…
one stick can be broken easily,
but a bundle of sticks is hard to break.

So in life, do not just aim to be good alone,
become part of a team.

Because…

“I” can dream,

but “We” can make that dream come true.
